

Office Conference Microphone

User Manual

iiglo®

Description

The IIOFFCONFMIC01 easily connects via USB for web conference, gaming, and more. Big and high-performance capsule microphone is designed to capture crystal clear speech intelligently. The sound pickup ranges from 30cm to 300cm. The touch key can be used to easily control the mute and unmute without any beep sound interferences. It has an all-metal, low profile body with curved lines, making it an attractive and functional addition to any conference room or workspace.

Features

- Working status LED indicator
- 3.5mm TRS audio jack output
- Omni-directional polar pattern
- USB 2.0, Plug and play
