$\boxed{\text{Fn}}$ + $\boxed{\text{8}}$ / $\boxed{\text{9}}$ / $\boxed{\text{0}}$ **three sets of custom backlight mode switching.**

Long Press 3 seconds: enter custom backlit recording mode.
Short Click: switch to corresponding custom backlight.

Short Click: switch to corresponding custom backlight.

① Press $\boxed{\text{Fn}}$ + $\boxed{\text{8}}$ / $\boxed{\text{9}}$ / $\boxed{\text{0}}$ for 3 seconds to enter the custom backlight settings,
  (for example $\boxed{\text{Fn}}$ + $\boxed{\text{8}}$) when the indicator lights start to blink.

② Press the keys that needs to set the backlight.

③ Press $\boxed{\text{Fn}}$ + $\boxed{\text{8}}$ 3 seconds again to save and exit.

Repeat the above steps to set up three different key backlight effects.

Macro setting

What is macro recording?

Through keypad macro recording, a button can automatically complete
multiple commands. Example: in normal mode, for certain skills you need to
press multiple buttons, but through macro recording, can let one button
automatically play multiple buttom presses, giving you a advantage over your
oponents.

$\boxed{\text{Fn}}$ + $\boxed{\text{tab}}$ **Normal mode / Gaming mode** switching
  (macro recording takes effect only in gaming mode)

$\boxed{\text{Fn}}$ + $\boxed{\text{z}}$ / $\boxed{\text{x}}$ / $\boxed{\text{c}}$ **Support three macro recording / Toggle**

Press for 3 seconds long: set up button macro recording.
Short Click: turn on / close corresponding key macro recording.

How to set up macro recording:

① **Enter the gaming mode:** $\boxed{\text{Fn}}$ + $\boxed{\text{tab}}$
② $\boxed{\text{Fn}}$ + $\boxed{\text{z}}$ / $\boxed{\text{x}}$ / $\boxed{\text{c}}$ Select one group and press it for 3 seconds. (for example $\boxed{\text{Fn}}$ + $\boxed{\text{z}}$)
  When the indic ator lights flash, the macro recording starts (If there is no
  response,the game mode is not loading correctly. Please repeat the steps ①).

③ Click the set of keys that need to be triggered. Supported are 32 hits at most.
④ Press $\boxed{\text{Fn}}$ + $\boxed{\text{z}}$ for 3 seconds, Save macro recording and the indicator lights stop flashing.
Repeat the above steps to set up three different key macro recordings

Fn + **Pause** **Backlight color set**

In any lighting mode, **Fn** + **Pause** can switch different backlight colors.

You can download the software from our official website. This software supports 16.8 million custom color backlights, key function settings, game mode settings and other functions. For more details, visit **svive.gg**
